Time: 9:00am-12:00pm

Grades entering: 1st-3rd grade

Fee: \$190

Location: King's Elementary Library

Instructor: BEAM Instructors

Create moving contraptions with the newest educational robotics materials! Students will learn about motorized construction techniques and build a foundation for our advanced course. Kids will learn about how robots share similar features to people: Computers = Brains, Motors = Muscles, Sensors = Senses, Batteries = Hearts. We will build with step-by-step instructions as well as creative design challenges.

Robotics

Date: July 5-8

Time: 1:00-4:00pm

Grades entering: 4th-6th grade

Fee: \$190

Location: King's Elementary Library

Instructor: BEAM Instructors

Build and design real, functioning robots! Each day, students receive a short lesson, followed by guided creative building time. We will tackle creative team challenges, construct robots that automatically react to their environment using motors and sensors, and learn to program complex robotic behaviors. The session ends with an awesome battle-bot tournament!

Mining & Crafting with Bricks 4 Kidz

Date: July 11-15

Time: 9:00am-12:00pm

Fee: \$225

Location: King's Elementary Library

Instructor: BEAM Instructors

Prerequisites: Students must have basic computer skills: be able to save and load files, switch between programs and type on the computer.

Learn the art of the pixel! Join us for an in-depth class about drawing with the smallest squares on any screen - pixels. We will make retro-style

video game art, animated characters, and other art projects. Students will learn fine-art concepts such as color theory, light & shadow, perspective, tiling, animation principles and more. They will also learn the history of pixel art and how it is used in modern games and videos. At the end of the class, students will have a completed gallery of original artwork to share with friends and family!

▶ Video Game Design

Date: July 25-29

Time: 1:00-4:00pm

Grades entering: 6th-8th grade

Fee: \$225

Location: King's Elementary Library

Instructor: BEAM Instructors

Prerequisites: Students must have basic computer skills: be able to save and load files, switch between programs and type on the computer.

Design and build your very own video game! Students will use Stencyl, a kid-friendly game creation engine

to make 2-D video games on the computer. Each day, students will receive a short lesson, followed by guided creative building time. Lessons focus on designing fun and challenging platformer levels. This is not a programming-focused class, but students will have the opportunity to customize their games using block-based programming similar to Scratch. At the end of the course, students will have a game they can play and share with friends and family!

▶ Jurassic Brick Land with Bricks 4 Kidz

Date: August 1-5

Time: 9:00am-12:00pm

Grades entering: Kindergarten-2nd grade

Fee: \$195

Location: King's Elementary Library

Instructor: Brick 4 Kidz Instructors

Are you ready for the adventure of a lifetime? You're about to enter Jurassic Brick Land! Using

motorized LEGO® bricks, we will build a world that comes to life with gentle Brontosaurus, ferocious Velociraptor, terrifying T. Rex, and more. We'll learn about amazing dinosaurs that lived during

the Jurassic period, and other extinct, prehistoric animals that roamed the earth and swam the seas. Come learn, build and play at Jurassic Brick Land camp!

► **Bugs & Microscopes**

Date: August 1-5

Time: 1:00-4:00pm

Grades entering: 3rd-5th grade

Fee: \$225

Location: King's Elementary Library

Instructor: BEAM Instructors

Bugs are everywhere! Did you know that 90% of animals on earth are insects? We're here to see that bugs aren't scary, they are cool! We will explore our outdoor spaces for

local bugs, use pitfall traps to collect and observe them, and make crafts that explore the engineering and evolution of bugs and spiders. We'll search for things we can look at with our special microscopes and catalog with wildlife journals, as well as learn how to mount specimens on slides and to view the miniscule such as plant cells and creatures within pond water. Get to know the critters and miniature life in your backyard with Bugs & Microscopes!

► **Stop-Motion Animation**

Date: August 8-12

Time: 9:00am-12:00pm

Grades entering: 3rd-5th grade

Fee: \$225

Location: King's Elementary Library

Instructor: BEAM Instructors

Bring your story to life by making stop motion animated movies! Working in teams, students build sets and characters using LEGO® bricks, then write, direct, and edit a unique story to share with the world! Students will begin by learning about cameras and special software required for stop-motion animation. Then, we'll learn the visual principles of animation as well as storytelling fundamentals. By the end of the session, kids will

complete multiple animation exercises and a final film project using everything they've learned.
