The highest rate shown for each grade level is the exit range tuition amount for parents who don't qualify or chose not to apply for Variable Tuition. Through generous donations, our Annual Auction and shared facilities with CRISTA Ministries, no one pays 100% of the cost to educate each student. Instead of passing on the full cost of education, King's families pay no more than 90% per student, which is the exit range.

HOW DOES VARIABLE TUITION WORK?

If a family is concerned about their ability to afford the highest tuition rate at King's, they are welcome to apply for Variable Tuition. Available to current and new families of students in kindergarten through grade 12, Variable Tuition considers income, assets, family size, and any unusual expenses or unique financial circumstances.

Applications are submitted directly to Clarity Financial, a third-party agency. Clarity evaluates your application and makes a recommendation to King's Schools' Variable Tuition team. Your family's personal financial information is kept private and will never be viewed by King's employees. Clarity simply recommends a tuition pricing formula to the school. Variable Tuition is available to any deserving student on a first-come, first-served basis, governed by the resources the school has available to supplement Variable Tuition pricing. That said, King's works with as many families as possible to make the dream of a Christian education at King's Schools a reality.
