

SEVIS is a U.S. government database that allows schools and federal immigration agencies to exchange data on the status of international students. Information is transmitted electronically throughout an F-1 student's academic career in the U.S.

An electronic record is created in SEVIS for you after you are admitted and confirm enrollment at King's Schools. This allows the King's Schools International Coordinator/PDSO to issue an I-20, which you need to gain F-1 status. When you apply for a student visa and arrive at a U.S. port of entry, the consular officer or immigration official may consult SEVIS in addition to your supporting documents to verify eligibility for F-1 status.

King's Schools International Student Coordinator/PDSO will continue to provide reports throughout your academic career, noting information such as registration, address changes, academic program changes, degree completion, and immigration status violations.

The SEVIS program is funded in part by your SEVIS fee to the U.S. Department of Homeland Security. It is important to understand the F-1 student immigration regulations in order to maintain status while you are in the U.S. For more information, please contact your International Student Coordinator/PDSO in the International Department at King's Schools.

SEVIS Registration or Validation

PDSO/DSOs must determine if every initial or active F-1 student is eligible for SEVIS registration each Term. (Fall and Spring)

SEVIS Registration or Validation Requires the following:

- I-901 SEVIS fee payment
- U.S. physical address
- Properly formatted e-mail address
- U.S. or foreign telephone number, or a confirmation that the student does not have a telephone.

Deadline

SEVIS registration must be completed on all appropriate SEVIS records within 30 days of the start of each session. The statutory basis for the 30-day deadline is:

[IIRIRA 641\(a\)\(4\), 8 USC 1372\(a\)\(4\)](#)

(4) REPORTING REQUIREMENTS- Not later than 30 days after the deadline for registering for classes for an academic term of an approved institution of higher education or other approved educational institution for which documentation is issued for an alien as described in paragraph (3)(A), or the scheduled commencement of participation by an alien in a designated exchange visitor program, as the

(continued on next page)

case may be, the institution or program, respectively, shall report to the Immigration and Naturalization Service any failure of the alien to enroll or to commence participation.

In its October 17, 2003 memo, ICE clarified that SEVIS registration is linked to a student's "reporting" to the school, rather than to the state of a student's registration for classes towards a full course of study," and that SEVIS Registration must occur no more than 30 days after the program start date (for new students in initial SEVIS status) or the next session start date (for continuing students in active SEVIS status), rather than within 30 days after the deadline for registering for classes. ICE cited its need for "a standard, clearly recognizable means to determine the required reporting date" and "national security interests" as justification for this departure from the plain language of the law.

SEVIS Reporting Requirements

U.S. federal law and regulations require schools to update and maintain the SEVIS records of nonimmigrant students in F visa categories. There are certain "automatic functions" that will occur on a student's record in the SEVIS database system if these updates are not made in a timely manner. For example, if a student's record is not updated to show enrollment each Term, that record will automatically "terminate." A terminated record means that the student is **considered to be out of status or illegal in the U.S.**

King's Schools International Office is the designated office on campus to manage SEVIS reports for King's Schools K-12. It is extremely important to keep your email, telephone, and address updated and notify the International Coordinator/PDSO of updates so that we can contact you in urgent situations where your SEVIS record may be in jeopardy.
