KING'S PRESCHOOL

King's Preschool is a Christian faith-based preschool for children ages 2.5 to 5 years old. At the heart of our program is a desire to share Jesus' love with His children. We are committed to providing each child with a thoughtful, creative, and cooperative learning curriculum that equips them in body, mind, and spirit for God's purpose and glory.

OUR FULL-DAY PRESCHOOL OPTIONS BY AGE ARE AS FOLLOWS:

TEACHERS AND STAFF

The teachers and staff at King's Preschool have a unique calling to minister to the youngest of God's children, knowing that we are planting seeds of truth and wisdom that will become an anchor for their lives.

CURRICULUM

Our classrooms and daily activities are structured for success! Our experienced teachers plan and implement creative lessons each day. Each day starts with a time for **Interactive, Free-Choice Play**, followed by **Morning Devotion**. A learning circle is also guided by teachers, where students explore literacy through **Zoo Phonics**. Thematic concepts are presented using the **Creative Curriculum's**

Project Approach, including mathematical components. We incorporate diversity using **Multicultural curriculum**. Students are introduced to a different country, providing them with exposure to the art, music, animals, and geography of the country.

In addition to our large group circle times, the following materials and centers can be found in each of our classrooms, accessible for students during their guided center play times. Each center is carefully planned with your child's growth and development in mind.

DRAMATIC PLAY CENTER

At this center, children take on various roles and recreate real-life experiences while building their vocabulary and social skills through cooperative and community play. Through dramatic play activities, students develop a greater capacity for communication and important habits of mind that extend far beyond classroom walls and school years.

ART/WRITING CENTER

A variety of art and writing materials are available in the classrooms to allow children to explore their creativity. Art and writing centers are designed to give children the opportunity to develop, create, process, and work through their own plans and ideas. Teachers guide children in these centers to further develop language and communication skills through the art and writing process, optimizing autonomy, and allowing children to become confident and proud of their choices and accomplishments.

SPECIALTY CLASSES

In addition to our centers, circle times, and other artistic opportunities throughout the general school day, we offer specialty classes each day of the week. Dance, music, theatre, sports, and Spanish classes are taught by experts. They promote creative learning, foster multicultural awareness, and reinforce and enrich skills and content being taught in the classroom.
